STUDIA QUATERNARIA

An interdisciplinary journal on the Quaternary

vol. 19 (2002)

CONTENTS

Mark Stephens, Dariusz Krzyszkowski, Andriy Ivchenko, Marek Majewski

- Palaeoclimate and pedosedimentary reconstruction of a middle to late Pleistocene
loess-palaeosol sequence, Prymorske, SW Ukraine 3

Mirosława Kupryjanowicz, Danuta Drzymulska

- Eemian and Early Vistulian vegetation at Michałowo (NE Poland) 19

Maryna Komar, Maria Łanczont

- Late Pleistocene loess-paleosol and vegetation successions at Tarnawce (San River valley,
Carpathians foothills, Poland). 27

Krystyna Bałaga

- Hydrological changes in the Lublin Polesie during the Late Glacial and Holocene as reflected
in the sequences of lacustrine and mire sediments 37

Krystyna Szeroczyńska, Michał Gąsiorowski

- Palaeohydrological aspect of transformation of lakes into peat bogs during Middle Holocene
on the basis of Cladocera analysis in the northern Poland 55

- Conferences 61
